EXPERTISE
Equiparc
From idea to creation — all Canadian

Create an **EXPERIENCE....**

For more than 40 years, Equiparc has been contributing to make public spaces more enjoyable by manufacturing site furniture that goes way beyond the utilitarian. Combining design with quality and durability, we offer a variety of site furniture. Our benches, tables, planters and other elements will contribute in creating an experience through all the season. Our knowledge and expertise have allowed our clients to create or customize products for their projects. Involved in several prestigious sites including the Espace 67, Love Park and Giant Steps school, Equiparc's site furniture has become a gold standard throughout North America. As public spaces and parks are revitalized, no challenge is too ambitious or modest for Equiparc.

Our reputation as well as our values can be defined in three words: Design, Durability Expertise.

QUICKSHIP PROGRAM

Get the most popular products in a shorter leadtime.

- Available coverings: cedar (CRPU), gray (YRPU) and walnut (WRPU)
- Available structures: Black and Galvanized
- Production leadtime of two weeks.
- Only the items and colors shown are available in the Quick Ship program.
- Maximum purchase of fifteen (15) items per order, including a maximum of six (6) items per product type. **Exception:** for products with the extended top option, the limit is set at two (2) items per order.
- Any additional purchases will be subject to the standard production leadtime.

Locate the products with the symbol to know which products are in the program.

Standard sales conditions apply to this program.

Subject to change without notice

Products are shipped as soon as they are ready.

No storage or delayed delivery options are available under this program.

EQUIPARC WARRANTY

Equiparc Manufacturier d'Équipement de Parcs Inc. provides a warranty for its urban furniture products against any defects in materials or workmanship. The terms of this warranty vary based on the materials used and the options selected.

For comprehensive details and maintenance recommendations, please consult the Warranty section on our website.

A NEW WAY TO TAKE A QUICK BREAK

EP 1350

EP 1350-D

Designing urban furniture starts with meeting the real needs of people. In environments where movement is constant and stopping times are brief, the EP 1350 leaning bench introduces a new way to rest by combining comfort and ergonomic support.

Positioned between sitting and standing, this innovative alternative to traditional benches provides intuitive support, allowing users to take a short break without fully sitting down.

Designed for transit areas and waiting spaces, it addresses several urban challenges: limited space in high-traffic environments, the need to accommodate users on the move, and the importance of maintaining smooth pedestrian circulation. Its compact footprint makes it an ideal solution for bus shelters, transit stations, and active transportation corridors.

Available in multiple configurations, it can be installed as a standalone unit, side by side, or back to back.

This Canadian innovation enhances the user experience while optimizing the use of public space.

An ergonomic alternative to traditional benches for everyday needs.

100% MADE IN CANADA

*Available only in LAF

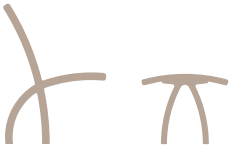

URBANITI Collection

Equiparc offers high quality products, and the URBANITI Collection is no exception. Special attention has been given to details, giving it a timeless yet modern look. The use of trapezoids in the design creates a certain playfulness, allowing it to easily integrate an urban setting.

The collection offers both boldness and simplicity depending on the color selection. It remains an affordable collection, perfect for municipalities or for seasonal furnishings.

INTERNATIONALE Collection

Created for the Quartier International de Montreal project, the INTERNATIONALE Collection draws on the modern and effervescent ambience of the area. Winning both international and local recognition, the benches are notorious for their barrel-like design.

VIVA

Islanded, placed side-by-side along a playground, or grouped together to make a platform, these modules can be shaped however your imagination see fit. Let yourself go! These versatile three-tiered steps invite you to sit in various and intuitive ways.This collection is perfect for a gaming environment and for creating an outdoor classroom!.

Collection **40**

The 40th anniversary of Equiparc was marked by several festivities to celebrate in style. From these events emerged the idea of designing an inclusive and unifying product line.

In order to offer products with a long lifespan, we use materials known for their anti-corrosion properties. Our structures, such as seats and backrests, are made of galvanized steel, and our bases and accessories are made of aluminum.

This modular collection will harmonize with your space, whether it's curved, straight, large, or small, thanks to its design inspired by the fluidity of nature. Versatile and refined, the **Collection 40** promises to create a unique experience!

EXA Collection

The EXA collection is a line of furniture that plays on contrast and asymmetry, an interesting concept in urban architecture. The simplicity of the line allows it to be easily inserted in any design from the simplest to the most creative.

TANGO Collection

Inspired by the tango, this Collection offers the elegant curves found in the dance movements. Its audacity and unexpected design will bring to your environnement the emotions typical of this dance.

DELTA Collection

With its strong and refined look, the DELTA Collection evokes an industrial style ready to uphold through time with sturdy aluminum supports.

With its numerous architectural details brought to life through our best manufacturing processes, DELTA demonstrates our ability and expertise.

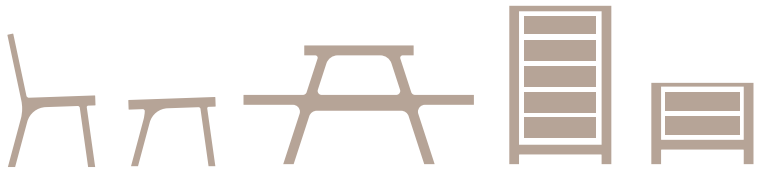

DIMANCHE Collection

Won by DIKINI in the industrial design category at the 6th edition of the GRANDS PRIX DU DESIGN, and designed for the 30th anniversary of Equiparc, the DIMANCHE Collection brings conviviality to public spaces. Its delicate rounded wood edges and its classic design invite you to take a pause.

PLAZA Collection

With its large wood slats and steel structure, the PLAZA Collection presents a modern take on the classics of urban furniture. The combination of materials will add elegance and finesse to your project

ESPLANADE Collection

The ESPLANADE Collection design allows you to create modern and elegant spaces. The furnitures concept allows the creation of a single continuous line with single middle support. Its slightly elevated aesthetic profile naturally integrates an anti-skate.

PROMENADE Collection

Created for the Promenade Samuel-De-Champlain project, located along the Quebec City waterfront, the Collection PROMENADE gives a harmonious design and unique comfort. The furniture of this collection offers multiple possibilities to occupy your spaces with its massive and distinguished stature.

Collection **25**

To celebrate its 25th anniversary, Equiparc introduced the Collection 25. Designed for multiple installation possibilities, the modular furniture can adapt to on-site elements easily, and bring a unique outdoor arrangement.

AMERICA Collection

Inpired by the american design, the AMERICA furniture Collection uses the versatility of the aluminum for a contemporary and classic look. Add your personal touch with our selection of colors and coverings to make this design your own.

EUROPA Collection

Inspired by the clean lines of classic European designs, this bench features a robust structure allowing various lengths, armrests positions, and multiple coverings. Let the EUROPA Collection give any area the charm it deserves.

MTL Collection

Inspired by the city of Montreal (QC), MTL is a reflection of its dynamic lifestyle designed to stimulate social interaction.

Transcending the vocation of street furniture, MTL is a modular furnishings collection that enables exceptional arrangements and material combinations. Its unique features, including bistro table, lounge chair, back-to-back benches and accessories, such as round backrests and accent tables, provide an environment that evokes both chance encounters and planned gatherings.

OUR TEXTURED SEMI-GLOSS COLORS

Navy | Glam Red | Saffron Yellow | Black | Anthracite Grey | Mist Grey | White

OUR SANBLASTED COLORS

Black | Bronze | Meteor Gray | Metallic Silver | White

RAL COLORS

POWDER COAT

Electrostatic powder coating provides an extremely strong adhesion appropriate for your space. For a better-quality control, our furniture is painted directly in our facilities. Environmentally conscious, the powder paint is non-toxic and has low volatile emissions..

STEEL AND ALUMINUM

With the objective of offering durable products, we rely on highly resistant materials such as steel and aluminum. Steel structures are hot-dip galvanized for optimal protection against the effects of corrosion. The aluminum structures are lightweight and require little maintenance. Both structures can be painted in an unlimited choice of colors.

100 % RECYCLED PLASTIC

Available for most of our furniture, this material provides several advantages: it is maintenance free, ultra durable, does not crack, decay, or cause splinters. Moreover, it is made from post-consumer or post-industrial products that can be recycled at the end of their life-cycle.

WOODS

Douglas Fir (DFP)

Douglas Fir is an excellent choice for exterior applications. For a better durability, Equiparc uses only SELECT quality planks with no visible knots. The standard finish of our furniture includes the application of a clear stain that shows the wood grain and prevents surfaces from peeling.

Jatoba (JAT)

This variety of wood comes from South America. Dense and resistant, it will retain its properties for many years. As we are always concerned by quality, we only use Premium grade wood. Furthermore, we apply a protective oil coating providing a rich color culminating in a most remarkable effect.

MAINTENANCE KIT

With time, the Jatoba wood exposed to the outdoor develop a natural gray patina. If you wish to, they can be restored to their factory-finish with our maintenance kit. It contains everything necessary : oil, sandpaper, wipe and an instruction guide.

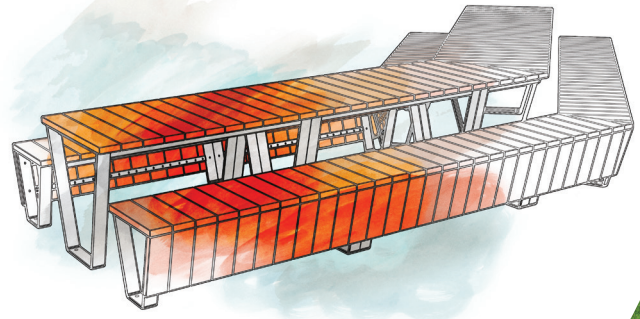

**Note that printed colors may slightly differ from the real color.*

CUSTOM PRODUCTS

In addition to all our standard lines, Equiparc offers the opportunity to create custom urban furniture. Our team will accompany you through the design process, to create the perfect furniture that will give a unique visual signature to your project .
